SUMMARY 3 STATUS

Attendance and Discipline
Students' attendance and discipline patterns

- Attendance**
Daily and class period attendance
- Discipline**
Discipline incidents and actions

Assessments
State and local examinations and assessments

- State Standardized Assessments**
Performance and progress on state standardized tests
- Language Assessments**
Performance and progress on language assessments
- Benchmark Assessments**
Performance and progress on local benchmark assessments
- Early Reading**
Performance on early reading inventories and assessments

Grades and Credits
Students' progression in coursework

- Course Grades: Secondary**
Performance and progress on coursework
- Course Grades: Primary**
Performance and progress in subject areas
- Credits**
Student progress toward graduation

Advanced Academics
Advanced coursework opportunity and performance

- State Standardized Assessments**
Student commended performance on state standardized tests
- Advanced Academics**
Student opportunity and performance on advanced coursework

College and Career Readiness
Students' ability to succeed in higher education and the workforce

- Graduation Status**
Graduation, completion and dropout rates
- College Entrance Exams**
Student performance on college entrance exams
- College Readiness Indicators**
Texas college readiness indicators
- High School Graduation Plan**
% of students assigned to each graduation plan

Met Goal Below Goal

1 District dashboards will include summaries of student academic indicators, as well as metrics on school operations and district resources. Indicators will tie to the District and Campus Improvement Plans and planning process.

2 The academic dashboard is the performance management analysis engine of the DCD. The performance metrics included in the dashboard are based on analysis of national, district and state best practices.

3 Each metric category contains a set number of detailed metrics. Performance on each metric within a category is represented by green and red bars — if a metric is positive, the vertical bar is green, if a metric is below a district-defined goal, the bar is red. Data that require intervention will be flagged to make it easier for educators to prioritize analysis.

Met Goal Below Goal Trending Up Trending Down No Change Alert

1

Metric values are based on a roll-up of student data across the district.

The district has the ability to set metric thresholds, which determine red or green status.

2

Trend arrows indicate changes in the metric value compared to the prior time period. A flag next to an arrow indicates a negative trend that needs attention.

3

Goals for each metric are set at the district and campus level. The attainment data reflect the number of campuses that are meeting the campus-defined goal for a metric.

4

The date indicates the time period that the data were last updated.

5

Users can modify the metric definition to fit the profile of the district.

6

A legend appears at the bottom of each page as a reference to users.

1

Each metric will have a district and campus goal that is tied to a strategic planning template. If the district (along with the campuses) completes the strategic planning templates, the DCD will be able to calculate whether the campus goals roll up correctly to allow the district to reach its overall goals. This feature will connect strategic planning to performance management and should bring more rigor to the goal setting done at each district and campus.

2

The assessment section will reflect the STAAR test results as well as language and local benchmark assessments.

3

The "More..." button allows users to disaggregate metrics by different subgroups including:

- Campus types
- NCLB groupings
- Time period
